REPORTING
POLICY

Rationale:
• Accurate and comprehensive reporting of school and student performance aids in establishing open communication, helps to improve student learning, assists in establishing future direction, and helps to identify areas of exemplary performance, as well as those in need of support and assistance.

Aims:
• To report school and student performance accurately and comprehensively.
• To improve student learning by accurately determining areas of future need, as well as areas of current exemplary performance.

Implementation:
• Our school is responsible for accurately reporting student achievement against the Victorian Essential Learning Standards (VELS) and the International Baccalaureate PYP Units of Inquiry to the students themselves, to parents, other teachers and schools, to School Council, and to the Department of Education.
• Each year our school will provide parents with two written Student Report Cards indicating their child’s academic progress against VELS standards and progression points. A separate document will display student performance in each Unit of Inquiry. Where necessary, translations into other languages will be provided.
• The Student Report Cards will be generated using Department of Education provided software, and will include assessments against state-wide academic standards, an indication of strengths and areas requiring additional assistance, suggestions for support and extension strategies, areas beyond the VELS (including attitude, participation, extra-curricular activities, social skills), and a student self-assessment.
• Staff will participate in moderation professional development involving assessment maps and annotated work samples so that staff can apply consistent judgements of student progress against VELS standards across the school.
• We will provide a formal parent/teacher interview and Student Led Conference per year – an introductory interview early in term to learn about the student, and one interview in Term 3 which is led by the student. Where necessary, interpreters will be provided.
• Our school will progressively develop learning improvement plans for individual students in consultation with parents and, where appropriate, with others with specific expertise.
• We will participate in the National Assessment Program – Literacy and Numeracy (NAPLAN) so as to gain information for staff, parents and students on students’ progress in relation to the VELS levels.
• The schools will assess the achievements of students with disabilities and impairments in the context of the VELS. Program support groups will help develop individual student profiles containing learning goals in each key learning area for each student. Progress towards learning goals will be reviewed and reported by the program support group.
• The school will provide all required performance data to the Department of Education and the community by means of an annual report, as well as an Executive Summary of performance data to all families.
• Students for whom English is a second language will have their progress in English reported against the ESL Companion to the VELS.

Evaluation:
• This policy will be reviewed as part of the school’s three-year review cycle, or at any time that Department of Education policy changes influence reporting practices in schools.

This policy was last ratified by School Council in: October 2011
